Movable screen holder

we're on it.

Movable screen holder

Your **benefits** at a glance:

- Customers with several machines and different screen widths can use existing screens in all machines
- Movable screen arms to handle screens of different widths
- For screen stroke combination 320/260 (also for 360/260)
- Preselection of the screens (screen stroke) via the HMI
- Function can be retrofitted

Characteristics

- In addition to a software extension, mechanical and electrical upgrades are required
- We recommend retrofitting by one of our qualified service technicians
